Pune, Maharashtra, India • +91 7794047370 • pattanagabhushanara005@gmail.com

EXECUTIVE SUMMARY

Results-driven Senior Full Stack Developer with 4+ years of specialized enterprise experience building, optimizing, and modernizing mission-critical web applications using React.js, Java Spring Boot, JavaScript (ES6+), Angular, and SQL. Proven expertise delivering end-to-end bespoke customizations for Archibus / Eptura IWMS, driving large-scale database migrations, and architecting robust RESTful APIs. Track record across the full Agile/Scrum SDLC delivering high-velocity implementations with 100% data fidelity and zero production disruption for enterprise clients across EMEA.

SKILLS

Frontend:	React.js, Angular, JavaScript (ES6+), HTML5, CSS3, Responsive Design, State Management
Backend:	Java, Spring Boot, RESTful APIs, Spring Data, Enterprise Workflows
Database & Migration:	SQL, Schema Optimization, Large-Scale Database Comparison, Data Validation & Migration
Tools & Methodologies:	Git, GitHub, Postman, JIRA, Agile/Scrum SDLC, Archibus/Eptura IWMS, Workplace & Asset Management

PROFESSIONAL EXPERIENCE

Senior Software Developer | Crestere Technologies LLP June 2025 – Present | Pune, India

- Promoted within 3 years for outstanding technical delivery, complex solution design, and platform version upgrades on enterprise Archibus (Eptura) IWMS.
- Architect modular full-stack capabilities with React.js and Java Spring Boot, streamlining space management, asset tracking, and facilities maintenance operations.
- Spearhead end-to-end database schema comparisons, automated data validation, and migration scripts across legacy-to-latest enterprise releases, ensuring 100% data integrity with zero downtime.
- Collaborate with international Product Owners, QA teams, and enterprise clients across Europe, the Middle East, and Africa (EMEA) to translate business requirements into scalable architectures.
- Direct code quality enhancements through thorough peer reviews, architectural mentoring, and enforcement of unit testing standards.

Junior Software Developer | Crestere Technologies LLP May 2022 – May 2025 | Pune, India

- Engineered responsive enterprise web applications utilizing Angular + Java Spring Boot (1.5 years) and subsequently re-architected core modules using React.js + Spring Boot (1.5 years).
- Customize Archibus modules to client requirements, developing UI enhancements, business rules, custom reports, and external API integrations.
- Conduct deep-dive troubleshooting and dataset reconciliations during high-volume enterprise upgrade cycles.
- Execute Agile/Scrum ceremonies, unit and API integration testing via Postman, and smooth production releases.
- Establish deep domain proficiency in facilities infrastructure management and enterprise workplace ecosystems.

EDUCATION

B.Sc. in Mathematics, Statistics & Computer Science (M.S.CS) | Osmania University 2014 – 2017 | 83%

Saiteja Degree College, Hyderabad

PROFESSIONAL TRAINING & CERTIFICATIONS

CCBP 4.0 - Continuous Career Building Program | NxtWave Intensive — Completed intensive curriculum covering React.js, Full Stack Development, Modern JavaScript (ES6+), Core Java, SQL, Responsive Web Design, and Git.
